## Did we get it right?

At the July 7 workshop, citizens voiced their concerns and aspirations for the future. Now planners will unveil the draft vision statements and ask the community "Did we get it right?"

Participants get a chance to use keypad polling, allowing them to provide electronic feedback anonymously. Polling results will appear on the screen instantly.

Go to the website to keep up to date on the General Plan and:

- Fill-out a vision questionnaire if you didn't get to attend the July 7 workshop.
- Sign-up to be considered for a spot on the citizens working group.
