ATTN: Grand County

To Whom It May Concern,

Pursuant to Utah Code 72-6-112.5, the Utah Department of Transportation (UDOT) is requesting a nighttime highway construction noise permit for the following project:

PIN 18350 – US-191; La Sal Junction to 300 South Moab

- Construction begins Mid-July and should be to Moab Mid-August
- This is a moving operation so the duration of noise impacts is short
- Noise study indicated at 100' from operation, no difference between normal traffic & construction equipment.

Performing this construction project at night will significantly improve the speed and safety of the project as well as limit the overall impacts to both local and visiting travelers and pedestrians. It is the Department's opinion that all things considered, the most beneficial and least impactful way to perform this work for all users is to complete the project during night-hours.

Please feel free to reach out with any comments or concerns. Please send a copy of the permit to:

Devin Squire – 210 West 800 South – Richfield, UT 84701 -or- dsquire@utah.gov

Thank You

Devin Squire – UDOT Project Manager
